

Are your ready to raise some money for NF 1 Charity New Paid Market Research Study

Caregivers of Patients who have NF-1 with Plexiform Neurofibroma
For 25 minute paid anonymous online survey from Jan 31 - Feb 25

We need Caregivers of patients under 18 years old with NF-1 with Plexiform Neurofibroma to participate in a market research study. Your effort has two benefits – First, you will be paid \$100 and make the opinions of caregivers of children with NF-1 with Plexiform Neurofibroma heard. Second, you support NF-1 charitable efforts- Market Vision makes a \$75 donation for each participant to an NF-1PN walk, event or organization as you direct. With your help, our market research studies have donated more than \$5,000 to NF1 Charities. Please contact Howard Jaffe by email

hjaffe@mv-research.com or call/text 610-416-2893

Please consider assisting in this project:

- You are a caregiver to someone under 18 years old who is diagnosed with NF-1 and Plexiform Neurofibromas (PNs)
- You are the person who would consider if a new medication to treat PNs is of interest.
- You can participate in a confidential 25 minute ONLINE survey that can be accessed 24/7 from January 31 – February 25th.
- The \$100 will be paid in cash by Venmo or a check, and in addition, \$75 will be contributed to a NF-1PN charity or organization as you direct.
- You can be from any U. S. geographic area.
- It is a web survey, so participation requires good Internet access.
- Howard Jaffe will share a link with you and have your information to make the payment by Venmo or check

We hope to interview at least 50 people, so please contact me.

Contact Howard Jaffe by phone or text 610-416-2893 or at hjaffe@mv-research.com for additional details

We are inviting caregivers of patients with NF-1 and Plexiform Neurofibroma (PN) to participate in a paid anonymous online Market Research study. Once qualified, the web survey will only take about 25 minutes to complete. You will access the survey with an individual web link that will be sent to you. It is confidential and not promotional in any way. No identifying information will be retained or shared. You can even start and stop and then continue so you don't have to do it all at once.

This survey is confidential and not promotional in any way. No identifying information will be retained or shared, and participants will not be identified in any way.
